SUICIDE PACT PLANNED THE KIDNAPPERS

Boyle Had Razor and He Begged to Be Allowed to Visit His Wife.

Sheriff's Suspicions Frustrated Plot-Woman Swallowed Enough Morphine to Kill Two, But It Did Not Affect Her.

Mercer, May 10 .- A carefully planned scheme on the part of Jimmy Boyle and his beautiful wife Helen to cheat justice was frustrated early to-day. A thorough search of Jimmy by sheriffs this morning resulted in the finding of a razor hidden between the lining and silk of his necktie and Mrs. Boyle frankly admits she "took enough morphine to kill two people" but it did not have the desired result. Adjoining Mrs. Boyle's cell is that of Mrs. Ella Harry who pleaded guilty this morning to the charge of killing her husband. Mrs. Harry is a victim of the morphine habit and the drug had been prescribed for her. Mrs. Boyle learned that Mrs. Harry was receiving morphine and secured the drug from her. Mrs.

Sheriff Chess says he believes that the purpose of the razor was to kill Mrs. Boyle during the interview and then for during the interview and then for Boyle to kill himself. LITTLE BABY OLD GRUDGE (Special from United Press.) New York, May 10.—Tony Crizento, an ex-policeman in Palermo, Italy, lies in the Harlem hospital today, stabbed in 26 places as a result of a ten-year-old grudge held against him by Raphel Calvenni, whom the former arrested half a score years ago. Crizento and Calvenni have been living in Harlem for a year or so. Each was unaware of the other's presence. Early today Crizento stopped to light HORRIBLY BURNED

was unaware of the other's presence.
Early today Crizento stopped to light a cigar, The match flared up. At his elbow he heard a cry. He turned and recognized the man who ten years ago he had taken into custody in far off Italy. Crizento prepared for what he knew would be a death struggle. Calvenni quickly struck Crizento on the jaw, felling him. When the two men lay on the sidewalk struggling Calvenni pulled a pocket knife, slashing his victim. A policeman saw the struggling men, pulled them apart, took Crizento to the hospital and arrested Calvenni charging him with felonious assault. "About a year and eight months ago my baby, aged ten months, was sitting on the mat beside the fender and we were preparing the breakfast when the fryingpan full of boiling grease was upset and it went all over one side of the baby's face and head. One of the family ran and wiped the scald with a towel and you may think what a mess she made, pulling the entire skin off. We took her to a chemist who told us to get a doctor, which w did. He tended her a week and gave me some stuff like lard to put on. But it all festered and I thought the baby was disfigured for life. A woman close beside me told me to try Cuticura Ointment. I used about three boxes and it was wonderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the scald had been. People used to ask me if that was the baby that was scalded and they would hardly believe me when I told them she was and what cured her face. Her skin is just like velvet and I have never been without Cuticura since. Cuticura cured three other children of ringworm besides, so I have good cause to thank it for what it has done. "Trial pieces" of wash goods at low prices.

From the famous Arnold Print Works, a lot of handsome wash fabrics at much less than regular price because they are trial pieces.

The Arnold Print Works produces probably the finest wash goods made in all America. They do it simply because they are always experimenting.

Those experiments are made not only to produce new things but to ascertain exact cost of that producing. The exact amount of silk that is woven in with the cotton, is noted. The time it takes to produce a certain design is calculated carefully. For these are the things that fix cost of production.

The goods made at these experimenting periods are called trial pieces. Often they are better than regular goods. That is because it is found that too much silk, for example, has been used in the fabric and its cost is too high to allow its selling at a price that will be liked.

But never are the trial pieces sold as regular. They are put one side and some lucky dealer gets them. We are the lucky folks this time. So are you-for as they were bought so they will be sold.
